

Giah Kang

8 Distinctions

**IEB Commendable
Achievement**

Carbe Dierm

The Grade 12s of 2012 achieved outstanding results in the final IEB examinations. While it is a given that we achieved a 100% pass rate, our group of 49 pupils achieved a grade average of 66%, with 46 pupils (94%) achieving Bachelor Degree passes and only 3 achieving Diploma passes.

The group achieved an average of 1.4 subject distinctions per pupil, with more than a third of the grade achieving an aggregate of 70% or more.

Top achievers included Giah Kang (90%, top 1% nationally in English and Life Sciences), Nadine Hugo (88%, top 1% nationally in English and Life Orientation), Jason Sullivan (85%), Michael Reinders (83%) and Vishal Mithal (81%). Tina Yang was also placed in the top 1% nationally for Chinese A Levels.

12 subject departments scored above the national IEB averages, including excellent performances by the English, Mathematics, Physical Science, Life Sciences and Economics departments, all of whom had more than 40% of the students in those subjects achieving 70% or more.

We are proud of all of our grade 12s, many of whom achieved personal victories with their results, manifesting significant improvements.

Our exceptional staff who guided this group to such academic heights are worthy of the highest praise.
