

Dear Fellow Acquaintance's,

I'm pleased to say that I really enjoyed my time at the Aurora Reunion Celebration. When arriving at the School I was quite overwhelmed and amused by all the lovely new Building construction that has been extended around the school. It was great to see these new changes at the school and am glad that the school is still striving for better a new idea.

When entering the Matric Reunion venue, I was excited and stunned to see that so many of our fellow Classmates there and how beautiful the venue was prepared by those that took the time to have organised this get-together.

I really enjoyed everyone's company and was glad to see everyone still looking so good and well at heart + hearing everyone's live changing stories, including nonstop laughing at the memories shared together back in our school days seeing all the lovely fun photos we shared back in our days at school was just awesome, (the walk around the school really sparked this as well in all of us and brought back such amazing old memorable stories.)

The service given with drinks and food was top class and could not have asked for better for the time given together.

Please do give my highest appreciation to all that took the time preparing this and biggest thanks to Aurora allowing us to share this time together.

\* Carpe diem \*
