

Good morning all,

Firstly I would like to thank Curro Aurora , for allowing us to have our 10 year reunion at the school, as well as assisting us with the organizing and security, it is much appreciated.

It really was a special day, it went fast, but it really was a good memory and really awesome catching up with school friends we spent a lot of our growing up with. The laughs, the memories and seeing where we are all at, was truly something I really enjoyed.

The tour of the school was so humbling, and the flash backs of memories really got to everyone, and there were so many different conversations going on during our walk and the big picture in Jupiter where we spend a few classes in high school was epic! We were all wowed by how much the school has changed and developed since we left 10 years ago, Curro Aurora are really creating a state of the art school and I wish you guys lots of success.

I would also like to thank the organizing committee that I was a part of, we were really on the ball, a few meetings and few hiccups but at the end we pulled it off :)

Again thank you from my side it was truly an experience I won't forget.

Have an amazing December, and awesome New Year's :)

Kind Regards,

Gabriel Correia
